

Looking Over the Picket Fence

My neighbor's dog was all fenced in so here is a fence you can make for your origami dog. (Ask an adult to help you.) Here's how . .

You will need ----

1. Two sheets of copy paper
You can choose colored paper or use crayons to make your fence a different color.
2. A pair of utility scissors
You will want to ask an adult to use the scissors. Do not use them yourself.
3. Crayons or markers
Lots of colors would be nice.
4. A sharpened pencil
5. Some old towels to cover the work area

Let's Get Started----

1. Begin this project by printing out the pattern below for the fence on copy paper.
2. Cut along the solid lines. This may be difficult so be sure to have an adult use the scissors. There are two patterns on the sheet of paper. Cut out both on the solid lines.
3. Using the crayons, "paint" your fence your favorite color or add a design.
4. Then fold the rectangle pattern in a zig-zag (accordion style) on the dotted lines.
5. Place the **Fence Pattern** on top of your folded rectangle and trace around the **Fence Pattern**.
6. Cut around only the L-shape fence post. Do not cut the sides of the folded rectangle.
7. Unfold the paper. You should have a fence to look over.
8. Now, you and an adult are ready to make the origami dog.

Cut out these two pieces to get started!
